Smithsonian Institution.

January 3. 1853.

COLUMBIA UNIVERSITY.

My dear Sir,

any rectification or correction which you should be willing to make to the Botany in Capt. Stansbury's Report on the great Salt lake I would gladly insert in the "Bibliography for 1852. which I am now preparing.

The "Bibliography for 1851" has just been reprinted in a dress more suitable to the wants of naturalists than the one under which it first appeared in the American Journal of Science.

Another edition of Capt. Stansbury is to be ordered soon, by Congress so that corrections by you could be incorporated if your time will allow to forward me the list.

COLUMBIA UNIVERSITY

With high Regards

I remain truly yours

C Girard

Dr. John Torrey.
New York.
